Great game.. Splice is definitely a game that I will play again. Difficult but definitely fun.. Only 4 control keys giving you nice bunch of fun - old school, addictive simplicity - honestly recommended!. Very unique and flexible concept. Also very easy to make excruciatingly difficult levels.. This game has so much potential and even at this state I bet I could put dozens and potentially hundreds of hours in with my friends.

Pros:

1. Game is fun (Only when others are playing)
2. Optimized swell
3. Graphics aren't too bad

Cons:

1. There needs to be more players and/or human like AI (I played against some God teir AI)
2. Vehicles damage far too quickly and easily
3. Aircrafts are really REALLY hard to control making them borderline useless
4. Maybe add a bit more recoil (just for realism)
5. Add more guns

Even though there are a few more things I dislike overall I think the game is amazing to play even if there's only 10-15 playing. However overall I think the game is still incredibly fun and worth a measly 99 cents.

Pretty good game to play in the background of commentary video. Also I love badge and emoticons. It's good enough.

7ish out of 10. Hours of wrist breaking, friendship ending, noscoping fun. seriously though, a really fun game. This game is fun.. I recommend this game to anyone who likes wasting money.. Brutal.

10/10

. This game is amazing, i would recommend it to all of my freinds, if i had any.
